

Sinclair Broadcasting's decision to show a politically charged "movie" immediately prior to the presidential election is a clear abuse of their right to use the public airwaves.

Sinclair should be required to give equal time at an equally prominent time of day, to the opposing view(s) or they should be stopped from broadcasting what amounts to a lengthy and extremely biased political advertisement.

I am 100% in favor of free speech. But the FCC knows better than anyone that the companies that use our public airwaves do not have complete freedom of speech. They are in fact heavily regulated.

Please regulate as the law requires.
